

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

**FLORIDA BUGGIST**

Official Organ of The Florida Entomological Society, Gainesville,  
Florida.

---

PROF. J. R. WATSON.....	Editor
PROF. WILMON NEWELL.....	Associate Editor
DR. E. W. BERGER.....	Business Manager

---

Issued once every three months. Free to all members of the Society.

Subscription price to non-members is \$1.00 per year in advance; 25 cents per copy.

---

In accordance with a vote of the Society at its February meeting, THE FLORIDA BUGGIST will, with the new volume, become THE FLORIDA ENTOMOLOGIST.

Yes, and the Business Manager regrets that this change of name was made without at least a month's previous notice, and without getting the vote of the non-resident members. It is the writer's belief that changes of name of a publication should not be hastily made, especially when it is considered that THE BUGGIST has completed three years of an honorable record, being successful far beyond the anticipation of its originators. A few people, somewhere in the United States, have been critical of the name *Buggist*, and so the movers for a change, Buggists who visited the Entomological meetings at St. Louis in December, rushed home and *ology* it must be with "all other ologies whatsoever". Verily, like a rush to cover of chickens from a shadow.

If those who are similarly minded will voice their sentiments by writing at once to the Secretary, there is still time for reconsideration. If the name must be changed, the writer would suggest *The Florida Insectist*—a name that is new and different, and not stale.—E. W. B.

**RECENT BULLETINS OF INTEREST TO OUR READERS**

Bulletin 805, U. S. D. A., "Two Leaf-Hoppers Injurious to Apple Nursery Stock," by A. J. Ackerman. The author gives only one locality for the Bean Leaf-Hopper (*Empoasca mali*) in Florida, about Ft. Lauderdale. The insect is of course exceedingly abundant over the entire state and has been frequently cited in literature to that effect.
